

26 FEB 1965

SUBJECT: (U) Evaluation of Intelligence Reporting that References
Specific Intelligence Collection Requirements

TO: Director
Central Intelligence Agency
Washington 25, D. C.

1. (C) The purpose of this letter is twofold:
 - a. To advise that the initial step in the DIA Collection Analysis Program is being implemented within the Department of Defense;
 - b. To request participation of the Central Intelligence Agency in the program.
2. (C) The initial step will be the evaluation, within DoD, of each Human Resource Intelligence Report (IR) that references a Specific Intelligence Collection Requirement (SICR). The evaluation in each case will be performed by the analyst who originated the SICR, using DIA Form 81, a copy of which is attached.
3. (C) The Central Intelligence Agency, as a SICR originator, is considered best qualified to evaluate any IR received in response to a SICR originated by the CIA. Accordingly, each IR that references a SICR originated by the CIA will be forwarded with copies of DIA Form 81 attached. It is requested that an evaluation be performed on each IR in this category. It is further requested that three copies of each completed evaluation form be returned to DIA, ATTN: DIAAQ-2B. The additional routing of the evaluation forms, as directed on the reverse side of the DIA Form 81, will be accomplished by DIA.
4. (U) Your cooperation in this evaluation effort will materially assist the DIA to provide more effective collection management, and to better serve the intelligence producer.
